

Inviting shoreline residents to:

Design Your Own Shoreline Garden

with

The Land Between

Cottage Country's Conservation Organization

Beautiful and Biodiverse

Shoreline gardens are functional, fantastic and fun. They can be tailored to match your style, maintain your views, and increase privacy- and they will help to attract birds, bees, and wildlife, while deterring nuisance geese and invasive warm water fishes. Naturalized shorelines also filter water.

Keep your lake *clean and healthy* for future generations with a native shoreline garden.

Now you can take home your custom design and plant list using Watersheds Canada's Natural Edge App!

Cost \$20.00. Space is limited. Reserved seating for Lakeland owners.

Please register at shorelinegardens.ca

June 9, 2018

Buckhorn Community Centre

10 am to 12 pm

Register for a chance to *win!* This year's shoreline garden attendees will be entered into a draw to win one of five prizes of \$200.00 in plants.

Please bring pictures of your shoreline to the workshop. Coffee and snacks are provided.

Order your own Shoreline Garden Starter Kit tailored for your shore's soil and sun. Cost per kit is \$80.00 with 12 plants and shrubs covering 12 feet.

Please note that while these sessions discuss erosion control issues, we do not condone the designing of erosion controls without on-site expert consultation. Therefore, no designs to mitigate erosion will be created in this class. (If you have erosion control issues, you can book onsite evaluations and consultations with our experts under contract with separate fees)

This program is an annual offer from TLB. This year's program has been generously supported by Environment Canada's Great Lakes Guardian Community Fund
